† It will be observed that the net receipts brought to account in the year 1898-9, viz. . . . . £ 21,558,227  
exceeded the Exchequer Receipts (see Table No. 4, p. 9), viz. . . . . 20,850,000

by no less than . . . . . 708,227

This large difference is due to abnormal Clearances during the last few days of 1898-99 on account of :—

(a.) Tea, estimated at . . . . .	£ 100,000
(b.) Tobacco, estimated at . . . . .	610,000
Total . . . . .	710,000

Such clearances were made in anticipation of a possible increase of the duty on these articles. The amounts thus collected in 1898-99, which properly belonged to 1899-1900, were accordingly held over and not paid into the Exchequer until after 31st March 1899.

\* Exclusive of additional Beer and Spirit duties collected for Local Authorities (see Table No. 13, p. 30-1).

‡ Exclusive of Local Taxation Licences collected for Local Authorities (see Table No. 13, p. 30-1).

NOTE.—The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.

\* Amount not specifically mentioned in the Budget.

† This is the actual decline in the produce of the Stamp Duty on Marine Insurances for one year after the alteration of the Duty. It is quite possible, however, that the improvement in trade may have obscured in part the loss of the Budget concession.

‡ The amount mentioned in the Budget was 25,000*l*., but that referred to the total repeal of the Licence which was not carried out.

† On the 1st November in each year.

‡ At the date of inspection.

§ The decrease between 1898 and 1899 is due to the number of men called out in the latter part of 1899 for permanent service. The number so called out form part of the Regular Army, but the increase in the number of the Regular Army, shown in Table No. 109, does not correspond with the decrease shown in Table No. 110, because the average strength of the Regular Army for the year is shown and not the number at a given date, as in the case of the Army Reserve.

† It will be observed that the net receipts brought to account in the year 1898-9, viz. - - - - - £ 21,558,227  
exceeded the Exchequer Receipts (see Table No. 4, p. 9), viz. - - - - - 20,850,000

by - - - - - 708,227

This difference is due to abnormal Clearances during the last few days of 1898-99 on account of :-

(a.) Tea, estimated at - - - - - £ 100,000  
(b.) Tobacco, estimated at - - - - - 610,000

Total - - - - - 710,000

Such clearances were made in anticipation of a possible increase of the duty on these articles. The amounts thus collected in 1898-99, which properly belonged to 1899-1900, were accordingly held over and not paid into the Exchequer until after 31st March 1899.

NOTE.—The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.

\* Amount not specifically mentioned in the Budget.

† This is the actual decline in the produce of the Stamp Duty on Marine Insurances for one year after the alteration of the Duty. It is quite possible, however, that the improvement in trade may have obscured in part the loss of the Budget concession.

‡ The amount mentioned in the Budget was 25,000l., but that referred to the total repeal of the Licence which was not carried out.

§ Grants made from the Exchequer to Local Authorities in England amounting to about £2,650,000 were at the same time discontinued.

NOTE.—As an increase of duty may lead to a diminished consumption or use of the articles taxed, the gain to Revenue is not necessarily a measure of the burden of the increase on the taxpayer.

\* The duties on Tea, Tobacco, Spirits and Beer, which were increased in connection with the Budget of 1900-1, actually took effect as from the 6th March, 1900; but the problematical amount by which the increase affected the receipts during the last three weeks of 1899-1900 has been left out of account in this table.

† Including Masters.

Note.—The above Return includes Channel Islands vessels; also, up to 1891, Foreign-going vessels belonging to the Isle of Man, for which crews were engaged at Ports in the United Kingdom. In 1892, and subsequent years, all Foreign going vessels belonging to the Isle of Man are included.

The number of persons employed in the year is the sum of the number of persons forming the first crew of each vessel employed during the year.

The Home Trade includes vessels trading or going within the following limits, viz.: the United Kingdom, the Isle of Man, the Channel Islands, and with the Continent of Europe between the River Elbe and Brest.

The Foreign Trade includes vessels trading or going beyond the above limits. Some vessels known to be trading abroad are omitted from the Return owing to the fact that no late information of the number of their crews could be obtained.

§ The decrease between 1898 and 1899 is due to the number of men called out in the latter part of 1899 for permanent service. The number so called out form part of the Regular Army, but the increase in the number of the Regular Army, shown in Table No. 109, does not correspond with the decrease shown in Table No. 110, because the average strength of the Regular Army for the year is shown and not the number at a given date, as in the case of the Army Reserve.

The number of vagrants relieved on 1st January and 1st July 1886 was 5,540 and 4,640 respectively, and on the corresponding dates in 1900, 9,841 and 7,779.
